Exported from an unofficial mirror of a public mailing list. Copyright in each message remains with the person who wrote it. Email addresses are obscured as `user at host`, the form the original archive published. This file was rebuilt from parsed fields rather than retained headers, so it is faithful in content but not byte-exact.

I notice the SF Book Club is offering "The Urth of the New Sun" in their next shipment. Hope it is as good as the first 4 volumes.
