Exported from an unofficial mirror of a public mailing list. Copyright in each message remains with the person who wrote it. Email addresses are obscured as `user at host`, the form the original archive published. This file was rebuilt from parsed fields rather than retained headers, so it is faithful in content but not byte-exact.

Alice Turner — 14 Aug 1999, 11:09

I haven't really been following the dialog on moons and months. But, as a gardener, I object to putting the Spading Moon after the Harvest Moon. Spading is done in the spring. Even pocket gardeners like me do a good deal of spading (in my case, troweling) every spring. After the Harvest, we might do a Mulching Moon <g>. Actually, I seem to remember that a Hunter's Moon comes along about then.
