It's a bit late to mention this, but we're slow in Australia - I hope people noticed how that nice clever gel alga had not one, not two, but about fifteen articles (on John Crowley under various species) in the August **New York Review of SF**. What a champion! Not to mention a cover piece by that arcane ferreter Michael Andre-Driussi, on a bestial matter. Yay!

(And all you poor things missed the Worldcon in Melbourne, just wrapped. Ah... I need a[nother] drink.)

Speaking of John Crowley, anyone got any news on 'Daemonology'?

SciFan's "Forthcoming Books in Series" page <<http://www.scifan.com/series/allforth.asp>> says that *_Daemonomania_* is due out in September 2000. This seems rather later than I had heard previously.
