I think Squanto is one of Natty Bumppo's many aliases in -Last of the Mohegans- (pc retitled). I think I actually have a copy of that, will check. In any case LotM is definitely one of the many works folded into "Boy Called Frog"---there's something else I recognized from it, will check.

Meanwhile, I have abandoned the Illinois area and am working on the Athab(p)ascans of the Far North. I have learned enough about Great Raven, who made the world, that I am no longer so ready to scorn the winged figure as a bird. Great Raven is something of a trickster, but I guess that could be applied to all gods, eh Ratty?
