Exported from an unofficial mirror of a public mailing list. Copyright in each message remains with the person who wrote it. Email addresses are obscured as `user at host`, the form the original archive published. This file was rebuilt from parsed fields rather than retained headers, so it is faithful in content but not byte-exact.

Kieran,

These are the snippets that really curdled me:

(snip)

"set inconceivably deep down the aisles of the future"

(snip_

"a white hole which scalds and drowns and cleanses the sacred Urth."

Ack! What a slaughtering of the language!
