Exported from an unofficial mirror of a public mailing list. Copyright in each message remains with the person who wrote it. Email addresses are obscured as `user at host`, the form the original archive published. This file was rebuilt from parsed fields rather than retained headers, so it is faithful in content but not byte-exact.

I am really sorry my paste from the OED on cacogen and carnifex came through so badly. There is a reason, but I won't bore you. I can repost legibly, if it's totally unreadable and more than one person wants to know. Or email me if it's just you.
