Exported from an unofficial mirror of a public mailing list. Copyright in each message remains with the person who wrote it. Email addresses are obscured as `user at host`, the form the original archive published. This file was rebuilt from parsed fields rather than retained headers, so it is faithful in content but not byte-exact.

Hello,

I hear the urth list archives are searchable? I checked out www.moonmilk.com/urth/ but can't seem to find the search form. Could someone email me or post the URL?

Many thanks in advance, and apologies for the digression.

Mikah,

Yes, it is searchable, and yes the search form can't be found from www.moonmilk.com/urth/. You have to go to the new (and still under construction) home of the Urth and Whorl mailing lists:

<http://www.urth.net/urth/>

To go directly to the search form:
