Certainly, there is never any mention in the Book of how these entities arrived.

But there is. We've been down this road before. Right at the very end of The Shadow of the Torturer, Jonas tells the story of the woman who comes back with space with a handful of magic beans, and threatens to throw them into the ocean.

Erebus and friends aren't genetically modified humans like Baldanders, they're alien lifeforms. That grow.

That's interesting--I hadn't thought of that. However, it seems a little farfetched--connecting Erebus & Co. to Jonas' story. Still, an interesting theory. I think I like it.
