Exported from an unofficial mirror of a public mailing list. Copyright in each message remains with the person who wrote it. Email addresses are obscured as `user at host`, the form the original archive published. This file was rebuilt from parsed fields rather than retained headers, so it is faithful in content but not byte-exact.

I'd like to raise again the possibility of a Gene Wolfe archive of collected papers and documents...

1. Where would this collection be housed?

=====

The collection should be housed close to Wolfe (Houston?) or to Tor, to improve the chances of material falling into its hands.
