Here is the 1976 Ace version

Here is the Scribners 1972(?) hardcover edition

Looks to me like a classic typesetting error first time around, corrected later.

D'oh! My careless reading, as bad as the luckless typesetter's. I stupidly took the first cite as the earlier (on-top-ology recapitulates file-ology). The typo dynamics remain valid, however, as someone else noted.

And all this time I thought the paperback was the earlier edition, and it never occurred to me the difference was a simple typo! Do you know, I puzzled over that sentence "all the worlds will be born" for a good fifteen years, until I read the Scribner's version?
