

word-wrap

The Urth list — 1 messages, 1 voices, 30 Apr 2000

Exported from an unofficial mirror of a public mailing list. Copyright in each message remains with the person who wrote it. Email addresses are obscured as `user at host`, the form the original archive published. This file was rebuilt from parsed fields rather than retained headers, so it is faithful in content but not byte-exact.

I thought I had fixed the word wrap before posting my little article, but no.
The Digest takes **forever** to download now, which is why I didn't realize the problem.
Ranjit---please--mercy!

(I will repost after some tinkering if mercy is shown.)
