Exported from an unofficial mirror of a public mailing list. Copyright in each message remains with the person who wrote it. Email addresses are obscured as `user at host`, the form the original archive published. This file was rebuilt from parsed fields rather than retained headers, so it is faithful in content but not byte-exact.

Quick note:

I don't know if everyone knows already, but alphabetstreet.com are taking pre-orders for a one volume 'book of the new sun' in paperback, to be released later in the year! If you go there, apologies for the review, they hacked it to pieces and it's mostly out of context.
