Exported from an unofficial mirror of a public mailing list. Copyright in each message remains with the person who wrote it. Email addresses are obscured as `user at host`, the form the original archive published. This file was rebuilt from parsed fields rather than retained headers, so it is faithful in content but not byte-exact.

Hey look!

Robert Borski has reactivated the map section of "Cave Canum"! (For a long time there was a space there, but no content. I'd given him some photocopies of original sketches years ago, and recently we put it all together.)

He also has new artwork for the index page! Robot say "Danger, Number Five! Danger!"

Check it out!
