This file was rebuilt from parsed fields rather than retained headers, so it is faithful in content but not byte-exact.

Nicholas Gevers — 16 Oct 2001, 07:27

A new novella by Gene Wolfe, "Viewpoint", is included in REDSHIFT, a massive and very impressive-looking anthology edited by Al Sarrantonio and slated for November release by Roc Books.

Other GW story notes:

Another new story by Wolfe will appear in MARS PROBES, a 2002 DAW Books anthology edited by Peter Crowther.

A little-known recent story by Wolfe, "The Walking Sticks", an unfortunately pretty dismal "sequel" to DR JEKYLL, first published in a limited edition anthology edited by Crowther (TAPS AND SIGHS), has been reprinted in David Hartwell's paperback volume YEAR'S BEST FANTASY (Eos).
