Exported from an unofficial mirror of a public mailing list. Copyright in each message remains with the person who wrote it. Email addresses are obscured as `user at host`, the form the original archive published. This file was rebuilt from parsed fields rather than retained headers, so it is faithful in content but not byte-exact.

The server that hosts the Urth and Whorl mailing lists is going to be shut down next week, so I'm moving them to a new home. I'll be moving the archives too, and hopefully getting them organized for the first time in years. There may be a week or two of confusion in the meantime. I will write with more details when I have them.
