Exported from an unofficial mirror of a public mailing list. Copyright in each message remains with the person who wrote it. Email addresses are obscured as `user at host`, the form the original archive published. This file was rebuilt from parsed fields rather than retained headers, so it is faithful in content but not byte-exact.

The majority opinion seems to be: one list. So it shall be, when Urth is reborn. But the guy who's setting up the new list for me seems to have gone off on vacation, so if the current Urth and Whorl vanish, don't worry; I've saved all your email addresses and will let you know when the new list is ready in January.
