The Urth list — 1 messages, 1 voices, 30 Jan 2002

<https://urth.darkrealm.vip/thread/urth/2895>

Exported from an unofficial mirror of a public mailing list. Copyright in each message remains with the person who wrote it. Email addresses are obscured as `user at host`, the form the original archive published. This file was rebuilt from parsed fields rather than retained headers, so it is faithful in content but not byte-exact.

Ranjit,

As a digest person, I am getting this list as a series of attachments--that is, I have to open every individual post as a seperate attachment. It would be ok, I guess, to get every digest as one attachment (though preferable to just get it as an email) but this piecemeal thing is awfully awkward. Thanks in advance for a fix.
