

admin: archives getting better

The Urth list — 1 messages, 1 voices, 11 Feb 2002

Exported from an unofficial mirror of a public mailing list. Copyright in each message remains with the person who wrote it. Email addresses are obscured as `user at host`, the form the original archive published. This file was rebuilt from parsed fields rather than retained headers, so it is faithful in content but not byte-exact.

I finally got the mailing list archives up to date through the end of last year. I'll have recent postings up there too, as soon as I figure out how. Give me a few more weeks.

The site now uses the google search engine to search the archives. It could take google up to a month to index the newly-posted archives, and it'll lag by about a month in catching up with new postings.

If any volunteers would like to help me spruce up the books page, I could use a list of all of Wolfe's published books. If one of you already has a complete bibliographical page, let me know and I'll just link to that instead.

I'd also like to set up a page of recommended reading by any authors. Send me your briefly-annotated lists of recommendations and I'll post them on the site.
