I really enjoyed the Huddleston interview, and there are a lot of things that can be discussed about it, but the one thing that struck me hardest was that Wolfe now has a computer and internet access. I wonder what effect that fact will have upon this list. For myself, when I knew that Wolfe didn't have those things, and at his age didn't seem likely to get them, it didn't matter so much what I wrote on the list, because he wasn't ever going to see it. Now . . .

Just read the Wolfe interview....thanks to Dennis/Endy for the heads-up. Slightly puzzled, though, by the following..

Then David Hartwell came back and said, "We have to put in a paragraph at the end. It says, 'Oh, by the way, Severian goes off world and he gets a white hole and he comes back and inserts it in our sun and hides the universe'

Hides the universe?
