I am aware of the meaning of the word, and fully admit the song has little to do with a pelagic argosy sighting land. Yes, this is wishful thinking on my part. I'm being a goofball. Sorry if it come accross as if I had a strong conviction about this; I was just thrilled to have a pop song that so recalled BOTNS, to me personally.

But "in the wake of his chariot", \_could\_ be the new sun? Eh? Eh?

Okay, maybe not.

Still, pelagic is one helluva weird word to put in a rock song, where the purpose is not to appear erudite, doncha think? I will shut up about this now, and only reiterate that just about anyone into GW would probably like this guy's music.

I know what you mean.

Music - not just music, but \*song\* - has always seemed fundamentally myth-making, alogical, beautiful, deep.

I wonder what songs Wolfe would sing if he could?
