Email addresses are obscured as `user at host`, the form the original archive published. This file was rebuilt from parsed fields rather than retained headers, so it is faithful in content but not byte-exact.

Nicholas Gevers — 07 Apr 2002, 08:04

My short introduction to Wolfe's Suns metaseries (the Bria Cycle, I call it), aimed at general readers but with some analytical content, appears in today's WASHINGTON POST BOOK WORLD, a special SF issue. The URL is <http://www.washingtonpost.com/wp-dyn/articles/A62473-2002apr4.html>

Some interesting pieces elsewhere in the issue, including a shorter puff for Wolfe by John Clute.
