Hey Roy. Nice point about the narrator being the one for whom only two years "may" have passed. It was still fun to think about all those time bending impossibilities, kind of. I'm glad we don't have to seriously consider it. Any other ideas about that 2/3 year thing? Could there be a delay between the time Horn died on Green and the time he was incorporated into Silk? Are they necessarily contiguous events? Sorry if my previous post seemed ignorant; I get the digest version and often miss immediate responses, unless I check the archive during the day.

On another note, I finished Crowley's The Translator two days ago. I don't know if I even liked it. I will go back and look over some of the comments that were made here now - maybe I'll think of something interesting to say ... maybe not.
