It is logical and straightforward. It is called Quantum Electrodynamics.

No, QED combines special relativity and quantum mechanics. The problem of reconciling general relativity with quantum mechanics is still unsolved.

"Toying" is an important word here. Based on the Wolfe answer I'm quoting

here, I'd say trying to make tBotNS fit with Christian theology in every

way

(or most ways) is like trying to create a perpetual motion machine or trying

to rectify general relativity with quantum mechanics: It seems so logical

and straightforward, but then....
