Exported from an unofficial mirror of a public mailing list. Copyright in each message remains with the person who wrote it. Email addresses are obscured as `user at host`, the form the original archive published. This file was rebuilt from parsed fields rather than retained headers, so it is faithful in content but not byte-exact.

Apologies from the message from Mr Ike Collins. You can tell he's a fraud because he didn't use a Viron-style nickname. I'll try not to let any more of these get onto the list.
