Gene Wolfe indicates he's finishing the third draft of THE WIZARD, with a fourth to come. No clarity yet on what he'll write after that...

So, do we know approximately how big _The Wizard Knight_ will be in the end? I remember that someone quoted Wolfe a while back, when he was still working on the first draft, as saying that he had done 1100+ pages (manuscript pages I presume) with much more to come. Does anyone know how many pages the first draft finally ended up being, or how many pages the final draft of _The Knight_ is? What would this say about the number of pages in the final book?
