Exported from an unofficial mirror of a public mailing list. Copyright in each message remains with the person who wrote it. Email addresses are obscured as `user at host`, the form the original archive published. This file was rebuilt from parsed fields rather than retained headers, so it is faithful in content but not byte-exact.

I just found myself doing a little work on this project, and I think this is premature.

I don't know, offhand, which of you know Gene Wolfe personally, but would like any of you who do and who have chosen to make him aware of this proposal to email me privately and let me know what's going on.

Thank you very much,

J.
