This file was rebuilt from parsed fields rather than retained headers, so it is faithful in content but not byte-exact.

mournings glory — 06 Sep 2003, 05:06

In his Washington Post Book World review of David Langford's "Up Through An Empty House of Stars," Michael Dirda writes: "This latest collection offers several long essays on major figures like Gene Wolfe (emphasizing his Long Sun series)."

Has anyone read the essays in question yet? Is the book worth picking up for the Wolfe material?
