Exported from an unofficial mirror of a public mailing list. Copyright in each message remains with the person who wrote it. Email addresses are obscured as `user at host`, the form the original archive published. This file was rebuilt from parsed fields rather than retained headers, so it is faithful in content but not byte-exact.

I haven't received any mail from this list for the past few days, so I apologize if this is needlessly redundant. I noticed this morning that The Wizard (ISBN 0765312018), scheduled to be published in November, is shipping today. bn.com and amazon.com both list it as in stock and shipping within 24 hours. Local bookstores may have it also.

Or maybe the reason I haven't received any mail is because everybody already is busy reading it?
