Exported from an unofficial mirror of a public mailing list. Copyright in each message remains with the person who wrote it. Email addresses are obscured as `user at host`, the form the original archive published. This file was rebuilt from parsed fields rather than retained headers, so it is faithful in content but not byte-exact.

Ok. Let's see if this works. I started a Wiki page on my machine. The URL is ugly, so if you like it, bookmark it.

Please read the instructions on how Wiki works.

My Wiki implementation is a bit creaky. I hope it won't cause more problems than it solves.
