Exported from an unofficial mirror of a public mailing list. Copyright in each message remains with the person who wrote it. Email addresses are obscured as `user at host`, the form the original archive published. This file was rebuilt from parsed fields rather than retained headers, so it is faithful in content but not byte-exact.

That's what I thought you meant, but I was unsure if you were referring to 2007, so I thought it would be best to double check.

Thanks again.
