Short Sun is really really excellent - I'm just on my first tour through the works of Gene Wolfe myself, but I really like Short Sun best out of the big cycle. You really have to read BoTNS and BoTLS to fully enjoy it, but getting through BoTLS is well worth it.

Yeah, it really is -- but then I actually like LS better than SS. On the other hand, there hasn't been a Gene Wolfe book I didn't like (and actually TWK is my personal favorite, but not the one I would think "best"). The only one I have never been tempted to reread is OPERATION ARES, but not because I didn't like it -- my paperback copy is falling apart and it's very hard to find.
