Has anyone read Peter Wright's Attending Daedalus? The scholarly language makes me fear I miss the point. I think he is saying that BotNS story is really about a political power struggle between two powerful and not very nice groups manipulating Severian, the overall philosophy being to address issues like colonization and imperialism and such. Any other thoughts on this?

I haven't read Attending Daedalus, but from your description it sounds like the kind of everything-is-political criticism that's fashionable in PoMo academia these days. I believe the same kind of thing has been said about the New Testament, among other works.

For a few of the older references. I know the book has been mentioned on the list recently as well, at least once by me.

Has anyone read Peter Wright's Attending Daedalus? The scholarly language makes me fear I miss the point. I think he is saying that BotNS story is really about a political power struggle between two powerful and not very

nice groups manipulating Severian, the overall philosophy being to address issues like colonization and imperialism and such. Any other thoughts on this?
