Exported from an unofficial mirror of a public mailing list. Copyright in each message remains with the person who wrote it. Email addresses are obscured as `user at host`, the form the original archive published. This file was rebuilt from parsed fields rather than retained headers, so it is faithful in content but not byte-exact.

I was annoyed to find that the Gene Wolfe article was assessed as "C-class" on the quality scale on Wikipedia, and have been working on it a little. I've fixed the article's writing style and added a new section for Wolfe's style. Tell me what you guys think--or, you know, contribute yourselves if you want. :)
