Has anyone here read this book? I'm not going to discuss the plot here, as I don't want this thread to be immediately spoilery, but I think there's a lot in the book to appeal to Wolfe fans. It's very short, but also quite satisfying. The author, Adolfo Bioy Casares, was a great friend and collaborator of Borges, who wrote an introduction to the book.

Yes. I think I was responsible for having it placed on _Lost_.

<http://jgoodwin.net/?p=488>

In all seriousness, however, it's a fine book, worth talking about its reference to Wolfe's interest in virtualization in the *nin* stories and perhaps also the islands.
