Exported from an unofficial mirror of a public mailing list. Copyright in each message remains with the person who wrote it. Email addresses are obscured as `user at host`, the form the original archive published. This file was rebuilt from parsed fields rather than retained headers, so it is faithful in content but not byte-exact.

Sorry if I inadvertently sent any of you LinkedIn requests - I tried to remove all Urth people from the auto-generated invite list, but I think a few messages may have slipped by.

(And now back to the discussion of Lupine matters)
