Cassie as Pavlatos, multiple Reis's, Margret as a werewolf.... Argh!?

I thought that there is more to AEG than I thought, but sometimes I wonder if we are indulging in unconstrained exegesis here. Is there any help from Wolfe on some of these speculations?

At Readercon, Wolfe talked about his pleasure in writing AEG, but didn't give any real plot hints aside from saying Reis was a villain who wanted to rule the world.

This latest round of speculations was set off by a reported clue Wolfe gave, that in the end Cassie loved Bill Reis and went to Woldercan to find him. Exactly how this could be possible (time travel, doppelgangers, etc.) has given fuel to our theories.
