Subject: Gene Wolfe

Hi there,

I am not sure if this has already been posted (I haven't read The Sorcerer? House yet and try to avoid spoilers), but according to Locus Gene had open heart surgery lately but seem to recover quickly: <http://www.locusmag.com/News/2010/04/gene-wolfe-recovering-from-heart-surgery/>

Please pass this info on if you like.

Best, Klaus

My email program may have broken the link below -- if that doesn't work, try this one:
<http://tinyurl.com/26w2h9s>

And locus's site seems to be down right now anyway, but a short item on sfsite says:

Author Gene Wolfe underwent open heart surgery on April 24 after suffering shortness of breath. An echocardiogram showed a leaking mitral valve and Wolfe had underwent double bypass and valve repair surgery. He is recovering well and his family hopes to move him to a rehab facility in the next couple of days.
