Exported from an unofficial mirror of a public mailing list. Copyright in each message remains with the person who wrote it. Email addresses are obscured as `user at host`, the form the original archive published. This file was rebuilt from parsed fields rather than retained headers, so it is faithful in content but not byte-exact.

I recently tried to access www.wolfewiki.com and found the address broken. The old address, <http://www.holkar.net/pmwiki/pmwiki.php?n=Site.AllRecentChanges> is still there. Does anyone know what has happened?
