Exported from an unofficial mirror of a public mailing list. Copyright in each message remains with the person who wrote it. Email addresses are obscured as `user at host`, the form the original archive published. This file was rebuilt from parsed fields rather than retained headers, so it is faithful in content but not byte-exact.

Jerry Friedman: Did you know you can search some of Wolfe's books at Google Books and at Amazon? I find this very useful.

Me too when it works for me. Sometimes (like today) it doesn't. And I face Jerry's problem with random excerpting also.
