I know what you mean ... when I joined we had (among others, simply from memory) Alice K. Turner ("Alga"), a former fiction editor at Playboy; and Michael Andre-Driussi ("Mantis"), whose work I assume everyone here is familiar with; and Kevin Maroney. All these seem to be gone forever. I miss their contributions.

And James B. Jordan ("Patera Nutria"). What you've described is precisely why I lurk and rarely read the list.
