My aunt gave me a copy of this book. I remember someone mentioning Graves before on this list--are any of you fans enough to tell me a little something about *Watch the North Wind Rise*, so I can bump it up or down my reading list?

I thought it was pretty good. Graves leaves you in no doubt about where he stands. What happens has some resemblances to Wolfe, but I won't say any more about it unless you don't mind my spoiling it.
