I apologize if this has already been discussed on the list. Is anyone in contact with Gene's children regarding his papers and correspondence? I'm curious whether they'll be donated to an archive and how scholars may be able to access them in the future. I know there has been some interest at Northern Illinois University in making them part of the SFWA papers in the library special collections.

Any information would be appreciated. Please feel free to contact me off list at scase at olivet.edu.

Thanks,
-Steve

University of southern Illinois got his papers, I am pretty sure. Not sure if that includes correspondence or not.

But now I doubt myself ... could it have been NIU? One of those.

Teri said the papers were going to NIU, you were right. I have no idea what the status is.
