I know you're all dying to know, but too shy to ask, "What about the abo Constellation `Fighting Lizard' with regards to this tentative designation of Wolf 294 as the star system of Saints Anne and Croix?" <g>

Well cadets, I'll tell ya hows I sees it.

Wolf 294 is located at Right Ascention 6 hours 51 minutes, Declination North 33 degrees and 20 minutes.

The "opposite" of that (please check my math and/or reasoning) will be around R.A. 18 hours 21 minutes, Dec. South 33 degrees.

This puts Sol in the area of Sagittarius.
