I've tried everywhere for both of these, to no avail. However, check out amazon.com and try their "out of print" ordering, they turned up a copy of "Species" within a matter of hours, but I regretfully couldn't afford it at the moment. You may have to pay a little extra, but I'm sure it's worth it to you.

Or a lot extra: amazon.com often charges very high prices for out of print books. Try www.mxbf.com or www.bibliofind.com first. I've used the former myself, and found it very helpful; it automatically connects you to a number of electronic book search services, including amazon.com (when I used it last).
