Thanks to alga, I read "The Night Chough."

The Scylla element there is indisputable, but it hasn't convinced me that the other suggested places in LONG/SHORT sun are instances of Scylla possessing Oreb. It seems to me that if those are meant to be clues to that, then they are SO subtle that it's underhanded even for Wolfe--it would almost require that you read this fairly obscure story to get what would then, Robert seems to be suggesting, be a major plot point of the series.
