I currently have a cold, possibly with a minor fever, and my troubled dreams kept trying to convince me that there are coded messages in _The Book of the Short Sun_ which will reveal who will, in the long run, win the 2000 presidential election.

Alas, I can't remember any of the codes, but I did come away with one key insight: Bush is a plant, and Gore is an animal byproduct. So is this a battle of the sexes?
