Exported from an unofficial mirror of a public mailing list. Copyright in each message remains with the person who wrote it. Email addresses are obscured as `user at host`, the form the original archive published. This file was rebuilt from parsed fields rather than retained headers, so it is faithful in content but not byte-exact.

Sorry for the HTML format on the previous post. Just got a new computer and haven't gotten all the settings in line. Hope this fixes the problem. :)
