Exported from an unofficial mirror of a public mailing list. Copyright in each message remains with the person who wrote it. Email addresses are obscured as `user at host`, the form the original archive published. This file was rebuilt from parsed fields rather than retained headers, so it is faithful in content but not byte-exact.

I know this is not very interesting, but my RttW has been shipped from bn.com, so it really is available. There is a coupon code "CISCOEF" which is good for \$10 off on a \$40 order, so everyone should order two copies.

On a more substantive note... any thoughts on the rape of Mora?

On rereading, I found this brief scene even more disturbing than the Seawrack incident. Is it possible that Wolfe included it as a provocation? I am having trouble finding another explanation.
