Exported from an unofficial mirror of a public mailing list. Copyright in each message remains with the person who wrote it. Email addresses are obscured as `user at host`, the form the original archive published. This file was rebuilt from parsed fields rather than retained headers, so it is faithful in content but not byte-exact.

On another etymological note, I've been re-reading the mailing list archives, and someone wonders about the fliers' names. In fact they're Irish. Off the top of my head:

Grian: sun
Aer: air
Mear: finger
Sciathan: wing

Otherwise I'll have to check Sumaire.
