Exported from an unofficial mirror of a public mailing list. Copyright in each message remains with the person who wrote it. Email addresses are obscured as `user at host`, the form the original archive published. This file was rebuilt from parsed fields rather than retained headers, so it is faithful in content but not byte-exact.

Michael Straight — 03 Apr 2001, 16:23

I can't find it in the archives, but I could have sworn there was someone complaining about Horn going on and on about corn genetics at the beginning of OBW. I'd forgotten all about it until I started looking at OBW for the second time, and here it is, Wolfe laying out the theme of the whole series in the first chapter.

I note that hybrids are stronger than the original strains, but ultimately a dead end, requiring you to go back to the original.

-Rostrum
